

Table 3: Summary of the receiver operator characteristic (ROC) results showing areas under curve and the corresponding cut-off points for the left mandible.

COMPARISON GROUPS	AREA UNDER CURVE FOR MCW LEFT			CUT-OFF POINTS
	ROC curve (AUC)	Sensitivity	Specificity	
NORMAL vs. OSTEOPENIC	0.643	66.99	60.38	Osteopenic ≤ 3.78
NORMAL vs. OSTEOPOROTIC	0.868	77.36	85.85	Osteoporotic ≤ 3.24
OSTEOPENIC vs. OSTEOPOROTIC	0.810	77.36	73.79	Osteoporotic ≤ 3.24

ROC curve: receiver operator characteristic curve, AUC: area under the curve, MCW: mandibular cortical width.
