

**Table 4:** Correlation of the laboratory parameters with pruritus.

Pruritus	GFR (mL/min/m <sup>2</sup> )	Hemoglobin (g/dL)	Hematocrit (%)	BUN (mg/dL)	Albumin (g/dL)
Present	11 (7-76)	10.9 (8-13)	32.1 (24-41)	59 (20-122)	3.55 (2-5)
Absent	43.5 (6-139)	11.7 (7-16.5)	34.7 (21-49)	50 (6-102)	4.1 (2-5)
p-value	<b>0.024</b>	<b>0.002</b>	<b>0.002</b>	<b>0.007</b>	<b>0.001</b>

Values are presented median and minimum-maximum in brackets. GFR: glomerular filtration rate, BUN: blood urea nitrogen.
